BIG ASS FANS

Titan Electric Companies Texas Division (TET) is Selected as a Certified Installer and HVLS Fan Specialist for Big Ass Fans in the DFW and North Texas Area

July 14, 2026: (Arlington, TX)- Titan Electric Companies, a leading electrical contractor committed to Powering the Future, with operations in Atlanta, Texas, Florida, Tennessee, and the Carolinas, announced today that its Texas division (TET) will now serve as a Certified Installer and HVLS Fan Specialist for Big Ass Fans in the DFW/North Texas Market. Big Ass Fans (BAF), a leading international manufacturer and retailer of revolutionary, high-velocity industrial fans, assigns this designation to select professional contractors annually.

“We are honored to be one of the preferred BAF installers and service providers in the North Texas market,” said Troy Gilbreath, General Manager for Titan Electric Companies (TX). “Having partnered with Big Ass Fans on previous projects, we’ve developed a mutual respect for the impact both companies have made on this industry. We look forward to combining our expertise to continue delivering exceptional service to our client base.”

As a Certified Installer and HVLS Fan Specialist in North Texas, TET is now authorized to service, procure, and install BAF products for BAF clientele. The partnership grants TET access to expert hands-on training, high-level product knowledge, and installation support as needed. This new role will also grant access to a broader customer base for both TET and Big Ass Fans while also providing unique outlets for acquiring new business in secondary and tertiary markets.

Titan Electric Companies specializes in electrical construction in Design-Build, Service, Mission Critical, Low Voltage, Tenant Improvement, and Technology sectors. Titan Electric Texas Division has successfully served as the electrical contractor on some of Dallas’ most notable projects, including Pegasus Park, The Dallas VA Medical Center, and the Museum Tower in Fort Worth.
